Care and clear
Battery compartment or cap must be closed tightly for product to be waterproof. Rubber O ring around battery cap must be in place and intact for product to be waterproof. Wash with gentle soap and water before and after each use. Remove batteries if product will not be used for extended periods. If product does not turn on, remove and reinsert batteries taking care to check batteries’ polarity. If the problem persists, try a new set of batteries. It is suggested that your product not be completely submerged in order to avoid accidental leakage. Safely store your toy with one of Blush’s lint free Cotton Toy Bag.
