English

How to Use

Apply an adequate amount of gel before inserting. Warming it with a warmer or hot water can enhance the sensation.

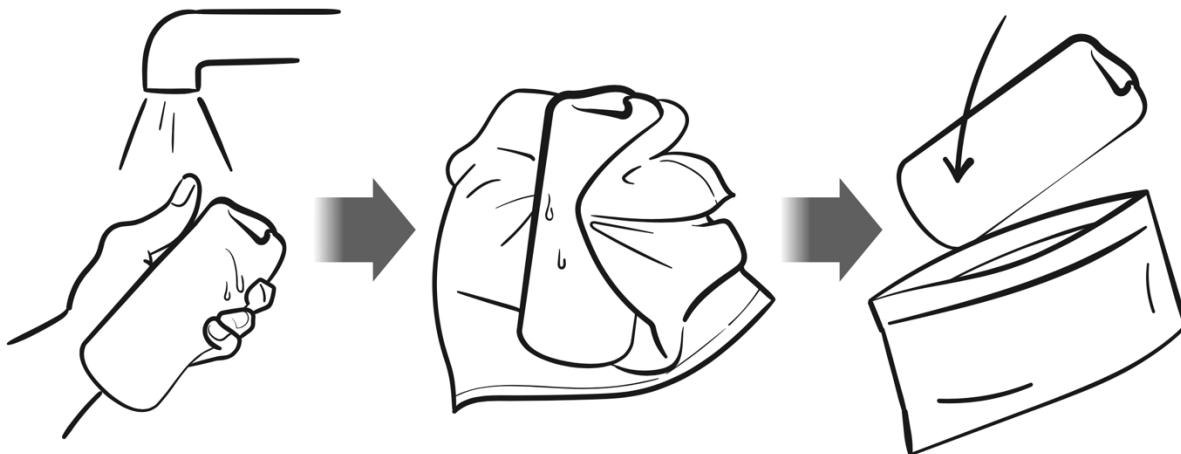

⚠️ If warming with hot water, check the internal temperature with your hand before use.

Usage Steps

1. Adjust the amount of gel to find the viscosity that suits you best.
2. After insertion, press the end of the candle to create a vacuum/suction sensation. Rotate it in different directions to find the stimulation you like.
3. Use the included tight ring to intensify stimulation at your desired area.

Cleaning & Storage

1. Rinse the candle thoroughly under running water.
2. Dry with a towel or paper towel.
3. Air-dry naturally in a cool place.

⚠ Cleaning, drying, or storing the product inside-out may shorten its lifespan.

Precautions for Use

- Loma Candle is a sex toy for men. Do not use for any purpose other than intended.
- Applying excessive force or heat may damage the product.
- Avoid direct sunlight; store in a cool, dry, well-ventilated place.
- The listed size is an average of shipped products and may vary slightly due to manufacturing.

Recommended Add-ons

- **Loma Drystick (Water-free):** Insert into the product to remove internal moisture.
- **Loma Drystick (Moisture-free):** Removes any remaining moisture after cleansing.
- **Loma Powder (Oil-free):** Spray-type powder; apply to a dried product to manage oiliness.
